

# Clean Car Standard phased implementation

## Stage 1

Register for a CO<sub>2</sub> account

- Importer can register for a CO<sub>2</sub> account
- Automatically assigned to Pay as you go compliance scheme
- Can apply for Fleet average compliance scheme
- Set up account users

## Stage 2 and 3

Get cars flowing into CO<sub>2</sub> accounts

### Stage 2

- Eligible vehicles must be associated with a CO<sub>2</sub> account for importation to New Zealand
- Importer can view the vehicle/s in their CO<sub>2</sub> account

### Stage 3

- CO<sub>2</sub> emission targets come into effect and vehicles will need to be accepted
- Pay as you go vehicles will incur charges and credits
- Fleet average vehicles will be tracked against the annual target

## Stage 4

Credit transfers and Pay as you go payments

- Ability to transfer credits between importers
- Option for Pay as you go importers to offset or pay their charges for accepted vehicles

## Stage 5

Pay as you go invoicing and reporting

- Publicly available record of account holders
- Invoicing for all remaining Pay as you go balance
