Disclaimer:

The information provided may vary due to applications being processed, system reporting delays and data anomalies.

The make and model of a vehicle is taken from how it has previously been registered in the country it has been exported from.

The vehicle price for car models that received five or less rebates have been excluded from the data as the sample size is too small to provide a reliable average.

There are a lot of determinants of vehicle price including vehicle age, import status (New or Used) and motive power, Kilometres travelled, etc which is difficult to capture, therefore the data provided is for informational purposes only.
