## MINO-0557 Public transport patronage and claims

15 December 2022

Provide updated tables for public transport patronage and claims from public transport authorities following MINO-0452 and MINO-0500.

### Waka Kotahi NZ Transport Agency's response:

- There is no direct correlation between patronage and fares, as half price is applied to concession products (such as monthly passes and '10 trip' tickets) as well as travel on the day products.
- We have provided below the total patronage numbers for each month, and the monthly claims for half price reimbursements from councils.

### Public Transport funding claimed

- During the first six months of the half price public transport scheme (1 April to 30 November 2022), a total of \$76.7 million has been claimed by Public Transport Authorities (PTAs).
- The table below details the funding that has been claimed by PTAs from 1 April to 30 November 2022.
- The total amount of funding claimed for November is not yet finalised yet as not all of the PTAs have submitted their November 2022 funding claim.
- Not all councils get their claims in every month, hence why there are a couple of gaps in the table. By the time they claim they might be claiming for multiple months' worth of funding.
- There is no patronage information on 'West Coast Regional Council' or the 'Far North District Council' because:
  - West Coast Regional Council provides the Total Mobility scheme only, i.e. there is no standard public transport service over on the West Coast of the South Island.
  - While technically not a public transport service, 'foot passenger' trips on the Hokianga ferry service are included in the scheme. This service is operated by the Far North District Council.
