Kia ora Prisca

Apologies for the delay in providing this, the approved line is below:

In the 12 months to December 2022 the materials used in Waka Kotahi construction contracts have increased on average by 24%. The overall cost of construction by 11%.

Please note the following:

- We have given an overall cost for materials as individual examples are too unreliable and not reflective, for example, bitumen moves around a lot so would be out of date from one week to the next.
- We will update the office this afternoon if any changes are needed from John Coulter but otherwise it is approved to use.

Ngā mihi
