MIN-4219 Meeting regarding tidal pontoon next to Māngere Bridge

9 June 2023

Provide background on the tidal pontoon next to Māngere Bridge proposed by Manukau Urban Māori Authority (MUMA) ahead of their meeting with the Minister of Transport.

Waka Kotahi NZ Transport Agency's response:

- Waka Kotahi has had no direct involvement with the proposal outlined by MUMA.
- Waka Kotahi consented and constructed the new Māngere Bridge, which opened in 2022.
- There have been preliminary discussions about a pontoon on the Onehunga side of the harbour (MIN-4018 refers)
- We need more understanding on how this project relates to Waka Kotahi infrastructure especially the new Māngere bridge and the motorway bridge before forming a position on the project.
- Waka Kotahi is happy to engage with MUMA to learn more about this project.
- A meeting with the Minister and MUMA has been scheduled for Thursday 13 July. Steve Mutton, Director Regional Relationships (Northland/Auckland) will attend on behalf of Waka Kotahi.
