

## "New Zealand law when driving" resource evaluation

This survey is part of the evaluation to test the effectiveness of the ["New Zealand Law when driving" steering wheel tag and information card](#), developed as part of the Visiting Drivers Signature Project. The purpose of this survey is to measure any changes in your observations of visiting drivers' behaviour.

You will be prompted to fill this survey in again in one month's time, and one month after that.

**Please answer this survey based on your observations of visitor driver behaviour over the last month.**

### **1. From your observations how often were visitors wearing their seatbelt/s?**

- Never
- Occasionally
- Sometimes
- Mostly
- Always

### **2. How often have you observed drivers driving on the wrong side of the road?**

- Never
- Occasionally
- Sometimes
- Often
- Very often
