Petition to support a new Melling Interchange

The Melling Interchange is a major choke point on SH2, particularly at peak times. It is also a safety and crash risk. We need a new and upgraded grade separated interchange (like at the Dowse and Haywards), and a new bridge across the river. A new interchange is also vital for the delivery of the Riverlink project for the Hutt. The previous National Government committed to fast tracking this vital project. The Labour led government needs to show the same commitment and get on with it.

Please sign to show that you support a new and upgraded interchange at Melling!

Petition to support a new Melling Interchange

The Melling Interchange is a major choke point on SH2, particularly at peak times. It is also a safety and crash risk. We need a new and upgraded grade separated interchange (like at the Dowse and Haywards), and a new bridge across the river. A new interchange is also vital for the delivery of the Riverlink project for the Hutt. The previous National Government committed to fast tracking this vital project. The Labour led government needs to show the same commitment and get on with it.

Please sign to show that you support a new and upgraded interchange at Melling!

Petition to support a new Melling Interchange

The Melling Interchange is a major choke point on SH2, particularly at peak times. It is also a safety and crash risk. We need a new and upgraded grade separated interchange (like at the Dowse and Haywards), and a new bridge across the river. A new interchange is also vital for the delivery of the Riverlink project for the Hutt. The previous National Government committed to fast tracking this vital project. The Labour led government needs to show the same commitment and get on with it.

Please sign to show that you support a new and upgraded interchange at Melling!

Petition to support a new Melling Interchange

The Melling Interchange is a major choke point on SH2, particularly at peak times. It is also a safety and crash risk. We need a new and upgraded grade separated interchange (like at the Dowse and Haywards), and a new bridge across the river. A new interchange is also vital for the delivery of the Riverlink project for the Hutt. The previous National Government committed to fast tracking this vital project. The Labour led government needs to show the same commitment and get on with it.

Please sign to show that you support a new and upgraded interchange at Melling!

Petition to support a new Melling Interchange

The Melling Interchange is a major choke point on SH2, particularly at peak times. It is also a safety and crash risk. We need a new and upgraded grade separated interchange (like at the Dowse and Haywards), and a new bridge across the river. A new interchange is also vital for the delivery of the Riverlink project for the Hutt. The previous National Government committed to fast tracking this vital project. The Labour led government needs to show the same commitment and get on with it.

Please sign to show that you support a new and upgraded interchange at Melling!

RELEASED UNDER THE OFFICIAL INFORMATION ACT 1982

14 January 2019

Chris Bishop
Member of Parliament for Hutt South
chris.bishop@parliament.govt.nz

REF: NZT-3533

Dear Mr Bishop

Thank you for your letter of 12 December 2018, and the petition you have attached regarding the proposed improvements at the Melling Interchange.

As you know, the NZ Transport Agency's Melling Transport Improvements component of RiverLink was one of the projects identified for re-evaluation to ensure it gives effect to the Government Policy Statement on land transport (<https://nzta.govt.nz/planning-and-investment/national-land-transport-programme/project-re-evaluations/>).

In considering investment priorities for the 2018-21 National Land Transport Programme, we balance improving safety and access, protecting the environment, and value for money. This means the construction timing, and form of the project will depend on growth and funding priorities across the country.

We appreciate people's patience as we have worked through this important re-evaluation process and we are working as quickly as we can to provide the best outcomes and value for money for communities now and in the future.

We expect to be able to make announcements about decisions on these projects in the New Year.

If you would like to discuss this reply with the Transport Agency, please contact Emma Speight, Director Regional Relationships (Lower North Island), by email to emma.speight@nzta.govt.nz.

Yours sincerely

Michael Stiassny
Board Chair
