Thanks Eddie,

Given there have been no updates and you are unable to provide details of the available options then a meeting may be premature.

**Subject:** RE: Melling Bridge proposal

Thanks s 9(2)(a) for your email. I am currently away in Hamilton for work and back in the office on Friday.

As you know, the project is currently being re-evaluated to check it's alignment with the new Government Policy Statement and I have been advised that the outcome of this re-evaluation will be known early next year, likely to be late January or early February 2019.

As soon as the outcome is known, our plan is to arrange a meeting with yourself and other property owners to update you on the outcome of the re-evaluation and the next steps.

I am happy to arrange a catch up with you to discuss the current project status. Please let me know your availability for next week. I won't have any further project update at this stage but I am happy to answer any questions you may have.

I will also forward this request to Kevin Reid as your requested.

Please accept my apologies for not acknowledging your email last time and any inconvenience it may have caused. I can guarantee you that this will not happen again in future.

Many thanks

Regards  
Eddie Anand

Hi Eddie

s 9(2)(a)

I ask the following

1. That unlike last time I wrote to you that you at least acknowledge receipt of this email. I made the time to personally see you so I would appreciate that even if you are unable to allow me the same courtesy that you have noted my concerns on file
2. That you forward to Kevin Reid so that we can potentially arrange a meeting to discuss my concerns.

Regards

s 9(2)(a)

Dear Roger

Thanks for your email.

s 9(2)(a) will be available to meet with you from 14 January and eagerly await your confirmation of a suitable time "early in the new year".

s 9(2)(a)

Please acknowledge this email and let me know when you expect the meeting can occur.

Kind regards,

s 9(2)(a)

**Subject:** Melling Transport Improvements s 9(2)(a)

Thanks [REDACTED] for calling earlier in the week and leaving a telephone message.

As you know, the NZ Transport Agency Melling Transport Improvements component of Riverlink was one of the projects identified for re-evaluation to ensure it gives effect to the Government Policy Statement on transport <https://nzta.govt.nz/planning-and-investment/national-land-transport-programme/project-re-evaluations/>

Unfortunately we are not yet in a position to announce the outcome of the re-evaluation. As soon as we are able, our priority will be to arrange a meeting with you and your clients as well as other property owners to discuss the outcome of the re-evaluation and next steps. We expect this to be early in the new year.

I know these delays are frustrating for s 9(2)(a) [REDACTED] and for the other property owners. We are committed to providing certainty as quickly as we can and appreciate your patience.

Regards

**Roger Burra / Project Adviser, Melling Transport Improvements**  
System Design & Delivery – System Design, Wellington

Dear Eddie

Following our discussion yesterday, you were to send me an email confirmation of that discussion for me to pass onto s 9(2)(a)

I look forward to receiving that at your earliest convenience.

Regards,

s 9(2)(a)

Hi s 9(2)(a)

The Petone to Grenada link road is one of a number of projects reviewed by the NZ Transport Agency to evaluate whether they align with the new vision for our transport network. You can find out more about the re-evaluations here: <https://nzta.govt.nz/planning-and-investment/national-land-transport-programme/project-re-evaluations/>

There is no update on the outcome of the re-evaluation of Petone to Grenada at this stage but you can subscribe to receive updates via the project page on our website: <https://nzta.govt.nz/projects/petone-to-grenada-link-road/>

Regards  
Rachel

Subject: Petone to Grenada Link Road

Hi there,

I live up at the back of Newlands in the Suburb of Woodridge and was wondering if there were any more updates on this project including whether the project is still planned to go ahead, potential timeframe and any changes to the route based on the last study conducted? I am not sure if there was a plan to include links from a suburb like Woodridge directly onto the expressway down to Petone? Any info would be appreciated.

Thanks in advance
