Dear Virginia

**Request made under the Official Information Act 1982**

Thank you for your email of 17 June 2019, in which you have requested the following information under the Official Information Act 1982 (the Act):

- *What is the maximum number of times any area of the expressway has been repaired?*
- *Has there been/are there any areas of the expressway that have needed to be repaired more than once? Please provide the size of the areas, or estimated size of the areas affected.*

I have addressed each of your questions in turn below:

*What is the maximum number of times any area of the expressway has been repaired?*

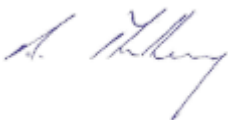

Some areas of the expressway received temporary repairs whilst a permanent solution was determined and then received permanent repairs. Hence these areas have been repaired twice. No other areas have required repeat repairs.

*Has there been/are there any areas of the expressway that have needed to be repaired more than once? Please provide the size of the areas, or estimated size of the areas affected.*

2625 square metres of temporary repairs have been replaced with permanent repairs (0.75km lane length by 3.5m wide). These are the areas referred to above that have been repaired twice.

If you would like to discuss this response further, please feel free to contact Jasmine Higginson, Lower North Island Manager Media, on (04) 903 2315 or by email to [jasmine.higginson@nzta.govt.nz](mailto:jasmine.higginson@nzta.govt.nz).

Yours sincerely

**Andrew Thackwray**  
Senior Manager - Project Delivery
