Cool, thanks Sharnae – I should've captured everything as all **group** comms includes Uber anyway. I'll have another look later today.

**Subject:** RE: OIA-6004 - Duncan Greive to reassign to Regulatory/Corporate please

I've interpreted it as both – so essentially it is a two part request as Andrew captured in his first email:

Two parts:

- Any communications between Mitch Cooper and/or Uber and NZTA over the past two years
- Any communications sent out to the future transport technology group in 2019

The first part will be specific communications with Uber/Mitch/Lewis/Amanda since Oct 2017.

The second part will be group emails to all members of the Leadership Group, which will include Uber representatives. For this second part, don't include emails from individual members responding to meeting invites and vis versa (unless it's Uber...), only include Group emails.

Hope this helps!

Hey folks,

Sorry, just re-read this as **all** comms to the Leadership Group. In my email to you, Sharnae, I included those to / from Uber specifically. Can I assume this is "group comms" – ie. there are some individual back & forths on being able to attend meetings or not, setting up Skype. Is this in scope – or is this interpreted as "sent to the Group" which is primarily 1) updates, 2) meeting invites, 3) papers.

If we can confirm, I can review again.

Cheers

Hey folks,

Sorry, just re-read this as **all** comms to the Leadership Group. In my email to you, Sharnae, I included those to / from Uber specifically. Can I assume this is "group comms" – ie. there are some individual back & forths on being able to attend meetings or not, setting up Skype. Is this in scope – or is this interpreted as "sent to the Group" which is primarily 1) updates, 2) meeting invites, 3) papers.

If we can confirm, I can review again.

Morning Ryan,

Thank you for the quick response!

I think that, given the full stop in the request, we interpret it as any communications we have sent to the Group. Lee may interpret it differently on her return, but if we can proceed on this basis then we should have all of the correspondence either way.

I can't imagine there are too many in our inboxes – I suspect it will just be emails from Luke organising the last Leadership Group Meeting (Fi, I have copied you in as you may have some from this meeting too...?). I have a few to the Group, but the remaining will have been from Andrew. If anyone received these emails from Andrew as part of the Group, then it would be great if you could send them on too – I don't know how else we get access to his emails!

If you're unsure, just fire it through to me!

Hi Sharnae and Andrew

I can confidently say I've never had any contact with Uber while working for NZTA.

I'm a little confused by the second bullet point "Any communications sent out to the future transport technology group in 2019". It seems very open or do you infer it to be "comms from Uber" to the future transport technology group in 2019".

We've had an OIA come in as you can see from below, to be signed off by L3 11<sup>th</sup> Nov.

Two parts:

- Any communications between Mitch Cooper and/or Uber and NZTA over the past two years
- Any communications sent out to the future transport technology group in 2019

Lee will lead on this once she's back on Friday, but Sharnae has kindly offered to start marking up emails in the meantime, so if you have any correspondence can you please start to dig it out and send through to her?

I guess Lee will look through Martin's emails and Andrew Jackson's if she has those, but if you're cc'd on anything to those two please send them through.

Many thanks!

Hi Sharnae and Lee,

I tried attaching all correspondence from- and to- Uber in the last 2 years, but the whole lot got a bit too large, so have placed them all here:

[https://nztransportagency-my.sharepoint.com/:f:/g/personal/luke\\_krieg\\_nzta\\_govt\\_nz/Ekz37zHY6zAs8ivGHR9-qYBOZKbG1oBIYY9iljxujGIQ?e=bnkhUN](https://nztransportagency-my.sharepoint.com/:f:/g/personal/luke_krieg_nzta_govt_nz/Ekz37zHY6zAs8ivGHR9-qYBOZKbG1oBIYY9iljxujGIQ?e=bnkhUN)

Excluded is all email traffic generated by Uber's systems related to the use of their services (e.g. Uber receipts, etc).

Future Transport Leadership group emails in a separate volley...

Hey folks,

Sorry, just re-read this as **all** comms to the Leadership Group. In my email to you, Sharnae, I included those to / from Uber specifically. Can I assume this is "group comms" – ie. there are some individual back & forths on being able to attend meetings or not, setting up Skype. Is this in scope – or is this interpreted as "sent to the Group" which is primarily 1) updates, 2) meeting invites, 3) papers.

If we can confirm, I can review again.

Cheers  
Fiona

Morning Ryan,

Thank you for the quick response!

I think that, given the full stop in the request, we interpret it as any communications we have sent to the Group. Lee may interpret it differently on her return, but if we can proceed on this basis then we should have all of the correspondence either way.

I can't imagine there are too many in our inboxes – I suspect it will just be emails from Luke organising the last Leadership Group Meeting (Fi, I have copied you in as you may have some from this meeting too...?). I have a few to the Group, but the remaining will have been from Andrew. If anyone received these emails from Andrew as part of the Group, then it would be great if you could send them on too – I don't know how else we get access to his emails!

If you're unsure, just fire it through to me!

I'm a little confused by the second bullet point "Any communications sent out to the future transport technology group in 2019". It seems very open or do you infer it to be "comms from Uber" to the future transport technology group in 2019".

Hi folks,

We've had an OIA come in as you can see from below, to be signed off by L3 11<sup>th</sup> Nov.

Two parts:

- Any communications between Mitch Cooper and/or Uber and NZTA over the past two years
- Any communications sent out to the future transport technology group in 2019

Lee will lead on this once she's back on Friday, but Sharnae has kindly offered to start marking up emails in the meantime, so if you have any correspondence can you please start to dig it out and send through to her?

I guess Lee will look through Martin's emails and Andrew Jackson's if she has those, but if you're cc'd on anything to those two please send them through.

Many thanks!

Kia ora,

I assume that Mitch and/or Uber would also be his replacement (Lewis Mills) and Amanda Gilmore, who are the main contacts the Innovation Lab has.

NZTA & Mitch / Uber

- I will have some in relation to the Hackathons, launch events and so on. Particularly as there are significant "To" fields with email addresses that will need to be redacted.
- Luke, you may have some in this respect to Amanda and Caroline re: mentoring at S1ML.

Future Transport Group

- I will include all that I have, but I imagine many double-ups with you, Sharnae.

Transport Innovation Workshops with the Ministry

- Luke, did NZTA send anything direct to invitees, or did this all go through Lucia?

Cheers

I can definitely do that! I've also booked in some time with her next week to discuss it and the documents I have.

I think sending on to Luke and Ryan is a good call. If you want you can tell them to send the documents to me and I can start converting documents to PDF and marking them up (I have the software), then it should be a little faster once Lee is back in the Office.

Some of these are forwards to me from Andrew as I wasn't a recipient, so I would suggest either:

- Tracking down the original message
- The forwarded message could be redacted, depending on relevance / sensitivity.

The Scenario Workshop Invites went much wider than just the Technology Leadership Group – these were two sessions of something like 50+ people at each, and most were not Leadership Group members (as was the intention).

It looks like Shannon sent out the late Feb / early Mar leadership papers from Martin's address – individually, I was BCCed on some (before I mentioned I didn't need to be on each) – I've included an example.

Yes, I suspect it will be quite large.

I'll try get in touch with the requester to narrow down the date range and get back to you.

We've received an OIA request for all correspondence between NZTA and Uber over the past 2 years.

Can I please have your approval for a sweep for all emails to/from [\\*@uber.com](mailto:*@uber.com) and [\\*@ext.uber.com](mailto:*@ext.uber.com). It's likely we'll need to refine the request so I'll just be getting a report on the figures at this stage.

Hi Eve,

I've already asked one of the ex-members of the old Future Transport team to start pulling out any correspondence they have related to this question, and that will be provided to Lee for consolidation once she's back. Lee also has access to emails of NZTA staff who have now left the organisation, and I expect this will be a key part to this response. Lee is very familiar with OIA responses & their timelines and I'm sure she will give it the appropriate level of attention when she's back in the office in two days' time on Friday 1<sup>st</sup> November.

Kind regards

Would you be able to confirm if you can draft a response to the request below for Duncan Greive.

Please note this is a joint OIA response with Regulatory Services and Duncan is a media reporter.

*I'd like to OIA any communications between Mitch Cooper and/or Uber and NZTA over the past two years. I would also like any communications sent out to the future transport technology group in 2019.*

*Thanks for your help,  
Duncan*

I'll get to work on approval for a sweep so we can scope how many emails there are. I think we'll need to refine it with the requestor.

If they were sent to/from a NZTA address we can sweep for them based on [\\*@uber.com](mailto:*@uber.com) but that could be a massive result.

I feel like we have looked for something like that and uber.com is not the main/only email domain they use. (might be thinking of something else)
