

## Maintenance Discharge Consent Annual Report: Jan-Dec 2015

**Consent numbers:** REG/2014/2140175, REG/2014/2140176

**Report Date:** 29 January 2016

This report summarises compliance with the Auckland Harbour Bridge maintenance programme consents REG/2014/2140175 & REG/2014/2140176 for the year 2015.

All works were undertaken in compliance with the consent conditions, and the requirements of the EMP.

A summary of the works undertaken under this consent in the current reporting period is provided in Attachment A. Compliance with thresholds and other controls is summarised below.

### Compliance with discharge thresholds (see Attachment B)

	Total (kg)	'Threshold' (kg)	Comply?
Particulate discharged to coast	5000	14679	Yes
Zinc discharged to coast	7.3	646	Yes
'Paint' discharged to coast	35.1	223	Yes

### Compliance with air controls\*

	Comply?	Details attached
Buffer zones	Yes	n/a
Wind speed and direction controls	Yes	n/a

\*Air discharge thresholds are met through compliance with buffer zones and wind speed and direction controls

### Other compliance

	Incident/complaint?	Details attached
Environmental incidents	None	n/a
Noise complaints	None	n/a
Odour complaints	None	n/a

### Summary of changes made through AMP

None to report
