Thank you for that clarification Chris.

Yes I will be onsite most of the time and s 9(2) has his traffic Mgt tickets so will be able to help. We will be close by to pick up any branches/cones etc that fall onto SH1. Will keep u posted.

s 9(2)(a) has just informed me that he hopes to be able to put up the new deer fence (Layby) on the week of the 9th Nov-So we will pull down old fence just a few days before he comes to ensure people are kept out or cant drop trailer loads of rubbish etc.

Thanks

s 9(2)(a)

Hi s 9(2)
()

Thanks for the update. Can I request that you keep an eye on operations. Might be an idea to try and complete the minor works around the rest area at the same time and anything required on the cut batters/benches opposite the rest area.

Your time/mileage can be claimed through the usual avenue of WBS 60040284 Kilmog Consultancy Services, however correct – the logging works themselves will be covered as a deduction for the Kirkmans revenue through FML. As previously indicated, I will cover TTM costs directly with s 9(2)(a)

Thanks
Chris

Morning Chris.

Thanks for all the details and approval and especially our site visit to look at all the practical operational aspects of the work.

Just to clarify the arrangement with Winders Logging. s 9(2)(a) would stand alone as the Principal contractor responsible and manage this work with his staff (1 person I think). The invoice for completion of the work will be forwarded to FML I assume.

s 9(2) does a lot of work for FML so if u want any background work/expertise/quality of work then

call s 9(2)(a)

s plans to have digger on site next Monday at around 8am at Russell Road. I have been in touch with s 9(2)(a) but will confirm Traffic Management requirements soon re Monday as well.

That's all at present will keep u updated otherwise.

s 9(2)(a)
