

OIA - 12979 Potholes Repaired by Region

Report Date: 27/06/2023

Data extract date: 27/06/2023

Requester: [REDACTED]

Request:

We are after data showing:

1 The total number of potholes in New Zealand in 2023 (until June 25), 2022, 2021, 2020, 2019 and 2018?

2 How many have been repaired by Waka Kotahi NZ Transport Agency in 2023 (until June 25), 2022, 2021, 2020, 2019 and 2018?

Could we also get a breakdown of the total number of potholes in the Northland, Auckland Waikato, Bay of Plenty, Wellington, Christchurch and Dunedin regions and also how many have been repaired in these regions?

Source database: RAMM

Report produced by: Alastair Foster

Peer reviewed by: Ernest Zheng

Please note the following concerning the data contained in this spreadsheet:

- The data only covers state highways. Local roads data must be obtained directly from the corresponding council.
- The data represents the number of pothole repair activities entered into RAMM by NOC contractors in each relevant calendar year.
- The measure of 'attendances' counts the number of times a contractor has fixed one or more potholes in a particular location on a particular date.
- Pothole repairs may occur as a result of the pothole having been reported by the public, or identified by the contractor.
- Due to the lag in contractor data load deadlines, the 2023 figures only cover the period up to 31 May.
- Figures are broken down by both region and city/district as it is unclear which of these is preferred in the original request.
- A small number of attendances are not spatially relatable to a regional/territorial authority within our asset management system. These are included as 'undefined' in the data set.

For further information, please contact StatisticalAnalysis@nzta.govt.nz
