---

Hi Weiyi

In addition to the aide memoire provided on 8 November 2019, please find attached a table of speed reviews currently underway.

Please note the following points in relation to the information provided:

1. This is an internal document only for the Minister and is not to be shared with external parties.
2. The decision status is tentative timing due to the fact that we are still analysing consultation submissions or the consultation has not closed yet and so can be hard to determine the time it will take to analyse consultation submissions.

Regards

Arina

Thanks for this. I note that in the paper it says that "a table of speed reviews currently in the pipeline is attached".

As discussed with Leisa the other day; my understanding is that the table is coming over by midday Monday next week.
