

Dear Resident,

## Investigation work in your area – Phase II Planning Complete

Phase two of Reveal's work in your area is due to begin soon, following our initial Investigation works in March.

**Dates:** 21 May – 9 June 2023  
**Night/Day:** All Night work (7:30pm to 5am)  
**Road closures:** Yes (stop/go will be operating to keep traffic moving)  
**Parking suspension:** Refer to table below for location of the parks that are needed with the likely dates  
**Pedestrian access:** Yes – at all times

## What will you see and when will this be happening?

### Phase Two

The data collected in phase one has now been processed and the final collection phase will soon be undertaken. During this phase:

- Data will be collected on foot by the investigation team (4-5 team members) in the roadway and selected carparks (~23 in total) where a manhole exits and/or where a temporary Bus Stop needs to be established, using 2D and 3D survey equipment
- This work will be carried out during night-time hours (7:30pm to 5am) to minimise the disruption to the travelling public
- This work will require temporary traffic management including lane reductions and the removal of some parking spaces for an evening to create a safe environment for the travelling public and the survey team as they move through the network
- In some areas, works are only planned for after midnight to further ensure minimal disruption to the travelling public
- This work is planned to be undertaken from the night of Sunday 21<sup>st</sup> May for and will take two to three weeks to cover the full 4km of the route including a small contingency for weather conditions which could slow or stop proceedings.

### Survey Areas and Carparks required

Day	Planned Dates	Shift	Approximate Area	Carparks required (21/23 in total)
1	21 <sup>st</sup> May, Sun night	Full	562A – 2A The Parade	1 - outside Community Orchard
2	22 <sup>nd</sup> May, Mon night	Full	486B – 562A Adelaide Rd	2 - outside 545 & 559 Adelaide
3	23 <sup>rd</sup> May, Tues night	Full	All Luxford St & Intersection with Adelaide Rd	2/3 – outside 28 to 30 Luxford 2/3 – outside 208 to 210 Rintoul Both areas are required for temporary bus stops

12	6 <sup>th</sup> June, Tues night	PM AM	Reef St, Island Bay 460 – 486B Adelaide Rd	Nil
<b>NB:</b> Specific notifications/coning will take place 24hrs prior to an actual carpark being required Shift; Full = prior to and after midnight, PM = before midnight, AM = after midnight				

**Weather**

In the event of unsuitable weather or other circumstances, the plan for work may change. If a no-parking notice has been issued and then work is postponed, then a new notice will be issued at least 48 hours prior to any new date.

.

**Traffic/Parking**

To ensure the survey can be completed as efficiently as possible, roadside parking will not be available in ~23 parks where manholes exist and/or Metlink require temporary bus stops to be setup.

These will be marked with “No parking” cones on the day which will be removed as soon as the investigation works are complete.

Please note – any vehicles obstructing work areas or traffic may be towed to a nearby suitable area. If your vehicle is not where you parked it, please call the WCC Contact Centre at 04 499 4444.

**Disruption**

We appreciate this investigation work may be disruptive for residents and/or businesses. We will be doing all we can to minimise the impact on your household and/or business.

Thank you for your cooperation and patience, it is much

	appreciated and will help us get the job done as quickly as possible.
