

Have your say!

A people-friendly Johnsonville Road looking toward the round-about at Moorefield Road.

As a business owner, your feedback is important to us.

Let's Get Wellington Moving is a programme of work aimed at improving connections for people on buses, riding bikes, or walking on key routes between and through the central city and suburban centres. We want to create a better, safer, and more attractive environment for people. A city that is great for everyone to live, work and play in is one with lots of public transport options and is easy to navigate without a car.

As part of our planning, we will be considering how to make it easier for people to ride a bike or a scooter, walk, or catch a bus between Johnsonville and the city through Ngā Ūranga Gorge. We have also identified some improvements around the Johnsonville Triangle which will make journeys safer and more efficient for people riding bikes, catching a bus, and walking.

But before we make any key decisions any key decisions and develop options and develop options any further, we would like your feedback on our ideas, and to hear about your walking, cycling, bus travel, and driving experiences in this area.

Why we need to plan ahead

As you know, our city is growing. Population growth will occur right across our city but particularly in areas close to the city. Johnsonville's proximity to green spaces and commercial/retail centres means that it is a great place to live and work.

Feedback from other community engagements shows that people living in our city would like:

1. Neighbourhoods that are well connected to other neighbourhoods.
2. Safer walking and cycling routes.
3. Sustainable transport options.

We feel our proposed changes to your area will enable continued growth by providing sustainable and people-focused options for getting around.

What we are investigating

We are investigating how to make it easier for people to travel along the cycle and bus routes to, from, and around Johnsonville into the city via Ngā Ūranga Gorge. This includes making the cycleway safer for all ages and abilities, creating better access to bus stops, improved crossing facilities, and opportunities to improve bus travel times. It will involve removing some on-street parking.

We will also work with our partners – Wellington City Council, Greater Wellington Regional Council, and Waka Kotahi NZ Transport Agency – to evaluate the benefits, costs, and risks of various options. When reviewing the options, we will consider what the community needs, how it will affect people living in the area, local commercial/ retail businesses, environmental and cultural areas of importance, and how this route will connect to schools and the city centre, before we reach a final solution.

As a business located along this route, we would like to share our ideas with you and get your feedback and ideas about what you think we should consider.

Moorefield Road raised pedestrian crossing.

Some ideas we are exploring

Moorefield Rd

We are considering improvements for people who ride bikes. We will also make it safer for people walking, crossing the road, and catching the bus.

Johnsonville Rd

We are investigating two options to make this area safer and easier for people on bikes. Option 1 is to separate cycle lanes to protect people on bikes from traffic. Option 2 is to use painted cycle lanes which connect to existing cycle lanes. We would also like to improve the cycle lanes between the Broderick Road intersection and SH1.

Ngā Ūranga Gorge

People can walk and ride bikes along the shared paths on each side of the Gorge but can feel unsafe being so close to high numbers of fast-moving vehicles, especially because these paths are very narrow in some parts. Our project is investigating a range of improvements to help people feel safer.

Waitohi Stream Ngā Ūranga.

Here's how you can have your say

You are welcome to attend our Drop-In Sessions, Facebook Live event or visit our public displays. If you know any other business owners, property owners, or property managers in the community who would be interested in attending, please pass on these details.

There are lots of ways you can talk to us:

Visit www.lgwm.nz/home/have-your-say to use our interactive map, find out more details, and leave your comments. A printed version of the survey is available from the public displays or on request.

Visit our displays

Waitohi Hub Johnsonville Library, Moorefield Road,
and Collective Community Hub, Johnsonville Road running through to 28 November

Come to our public drop-in session – all welcome

Time: 9am – 12pm

Date: Saturday 12 November

Location: Waitohi Hub Johnsonville Library, Moorefield Road

Come to our business only drop in session

(please register for this event citystreets@lgwm.nz)

Time: 6pm–6:45pm

Date: Wednesday 23 November

Location: Waitohi Hub meeting room

Participate in our Facebook Live session

Time: 7pm

Date: Wednesday 16 November

Location: LGWM office

This will be recorded for those who are unable to attend. It will also be available on our Facebook page <https://www.facebook.com/getwellymoving>.

If you require an interpreter, a guide, or have any other needs please let us know in advance:
