

50MAX UPDATES

March 2016

No changes to 50MAX this month

It has been a quiet month of the 50MAX front this month with no changes on the State Highway or local road network. Progress is being made with the remaining Road Controlling Authorities and we are hopeful of further inclusions over the coming months.

On another note we are starting to see an increasing number of 50MAX applications being delayed due to incorrect or incomplete information. We know that delays can be frustrating so here are a couple of tips to help ensure we can process your application within the agreed timeframes.

When applying for a 50MAX permit please ensure that all details supplied are correct, including registration plates. It is also important to ensure the company name applied for is the legal company name and that it matches the Transport Services License (TSL) holder name. If you have questions about what is required please contact us.

Correct information enables us to accurately process your application and reduces the chance of any delays.

If the details are not correct, we will return the application for you to resubmit with the correct details.

Finally operators are reminded to keep up to date regarding restrictions on the 50MAX network using the [interactive map](#). This map enables 50MAX permit holders to identify a safe route for their journey.

If you have any questions please contact us at info50MAX@nzta.govt.nz or call 0800 699 000.

The Local authorities that have opened their networks via our permits to 50MAX are unchanged from last month:

| 50MAXRoad Controlling Authority | Release Month | 50MAXRoad Controlling Authority | Release Month |
|---------------------------------|---------------|---------------------------------|---------------|
| Kawerau | Sep-13 | Central Otago | Mar-14 |
