

10 May 2022

Attention: All Waikato & Bay of Plenty State Highway Overweight Vehicle, HPMV Permit Holders

State Highway 27 (BSN814) Manawapou (Mangawhero Stream) Bridge opening

The new Manawapou (Mangawhero Stream) Bridge on SH27 has been opened to traffic. This introduces a new length of state highway to the Full HPMV network. The new length (indicated in purple on the adjacent map) is

- SH27 RP74/1.989 (Burwood Intersection, Matamata) to
- SH29 RP82/0 (Hinuera).

HPMV permit holders are permitted to travel on the new portion of SH27 in accordance with the conditions of their current permit.

Overweight (OW) Vehicle permit holders shall note the following:

- Vehicle with a current Overweight permit, VAI less 1.30, and gross mass less than 60,000kg, may travel the new route with no speed or position restrictions.
- Vehicles with a VAI greater than 1.30, or gross mass greater than 60,000kg, will require a new Overweight permit, or shall travel on an alternative route for which they hold a current permit.

All operators travelling this new route are required to append a copy of this addendum to their existing permit.
