An email and calendar invite was also sent to the Senior Management Team.

**Key topics**

The main purpose of this event was to provide a progress update to the project's key stakeholder Auckland Transport. It was an opportunity for members of the Senior Management Team to view the Northern Corridor Improvements project, which is also one of their key public transport priorities for Auckland.

**Notification of the event**

The event was requested by phone and email. A follow up email and calendar invite was also sent to the Senior Management Team. A summary of the event was also distributed to the Project Director the following week.

**Feedback**

Several queries included whether the busway extension could be opened earlier than the motorway lanes and the timing for construction of the shared path near Constellation Station. There was interest in the site of the future Rosedale Busway Station, where work is currently underway to build the busway bridge. The third and final site was the Paul Matthews Road area alongside the SH18 lanes, where the recent work on the new flyover was viewed and discussed.
