The aerial video was paused at intervals so Trish could talk in depth about the work taking place and how the finished layout of the area will look.

Notification of the event

The Rotary Club president contacted Trish to ask her if she could visit them to give an update about the project. An invitation was also extended to return next year to give an update.

Feedback

The presentation was well received and overall there were positive comments about the project.

Some key questions raised included:

- Why are park and rides not having more parking added to them
- Why do we not work 24 hours/7 days a week like overseas projects
- Why is the link from the west to head south to Auckland city not being built as part of the project
- The cost of the shared path and whether the number of cyclists would justify the spend when completed
