**Key topics**

The project team, Waka Kotahi and Auckland Transport hosted a site visit with Auckland Mayor Phil Goff. A brief overview of the project was given by Alliance Project Manager Gavin Hendricks and Waka Kotahi's Owner Interface Manager Simon Paton in the project office's visitor hub, prior to going out on to site to visit a number of key areas.

Staff conducted a tour the length of the project from SH18 to SH1, starting at the Albany Highway connection to SH18. Stops included the SH18/SH1 flyovers, Rosedale Busway Bridge and Constellation Station. A detailed overview was given by NCI staff at each stop.

**Notification of the event**

An official request via email came from the Mayor's office.

**Feedback**

The Mayor was interested in the timing of the opening of the busway, Constellation Station, Rosedale Station and completion of NCI.

Auckland Transport representatives were impressed by the health and safety record and asked if there was a possibility of some learnings from the Safety Manager.

Key questions were raised:

- How many alliance staff worked in the project office and on site?
- What surface is put on the concrete flyover bridges and why?
- Are there additional traffic lanes on SH1 to increase capacity at Greville Road?
- What is the difference in vehicle numbers per day on SH1 pre and post construction of NCI?
- What is the project's safety record and statistics?
- Do you have any resourcing constraints - engineers and skilled workers?
- When will the busway open and what are the dates for the stages for when it opens?
- What are the bus journey times before and after construction of NCI
- Visitor hub is fantastic, graphics and videos are great, who were the suppliers that put it together?
- Is the Rosedale Station funded already?
- How is Rosedale Station engagement going with Business North Harbour?
- When will Rosedale Bus Station be built and when will it open?

**Key social impacts and future project mitigation recommendations for project team**
