

**CONSULTATION SUMMARY REPORT  
OCTOBER 2020 MONTHLY COMMUNITY INFO EVENT**

**Overview**

<b>Event</b>	<b>Date/Location</b>	<b>Staff present</b>	<b>Approx. number attended</b>	<b>Notification of Event</b>
Fulton Hogan Project Managers site visit	Wednesday 30 September 2020 9:00am – 11:00am	<b>NCI team</b> Hamish Matthews Mark Burns Bradley Naidoo Kevin Ogden	10	Calendar invite

**Key topics**

The main purpose of this event was to provide an overview to Fulton Hogan’s Senior Project Managers. It was an opportunity for the managers from other national major projects to meet one another and view a number of projects in Auckland including the Northern Corridor Improvements project.

**Notification of the event**

The event was organised by the former NCI Project Manager Andrew Johnson and an email sent to organisers and attendees advising them of the date and times.

**Feedback**

The event provided an opportunity to showcase the construction of the project and learn what we are doing on this project compared to how other projects are run. They were interested to know how different aspects of the job are managed and lessons learned that can be applied elsewhere.

This involved discussions and queries about:

- Stakeholder Management – how we managed difficult neighbours leading to a discussion on how lessons learned could be applied at other projects
- How the Information Hub works
- Earthworks out of season, how we used wick drains or other methods to speed up settlement and where we removed spoil so that it couldn’t be reused on site
- Ghostbusters – how it has been applied and how it is working for the project
- Vibration monitoring, condition surveys and accommodation works
- Drainage, heavy plant and installation of our heavier structural elements

Positive feedback was given in relation to the Tirohanga Whānui Bridge and the quality of asphalt laid at the new National Hockey Centre.

**Key social impacts and future project mitigation recommendations for project team**
