**Subject:** Waterview Connection Proposal: Comments on Draft Report and Decision

To whom it may concern,

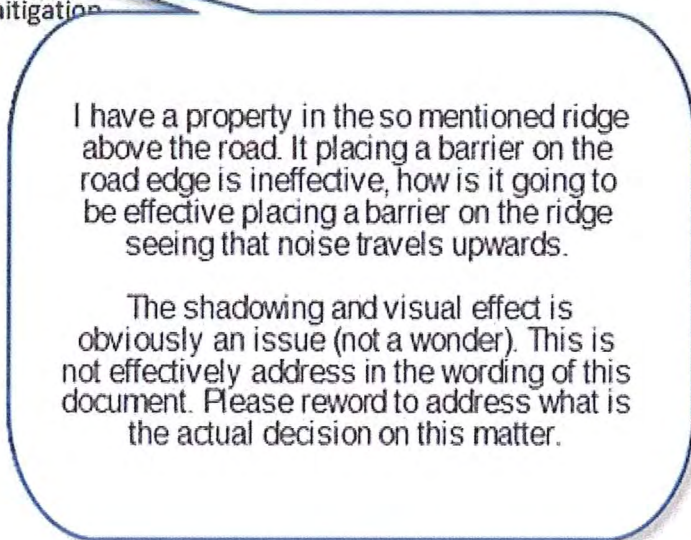

Comments as per below.

[757] In sector 6, noise will be created by the construction of traffic noise barriers, piling and rock breaking for the construction of the Carrington Road Bridge, and general road construction. Much of the work can be undertaken during the daytime, but some night time work might need to be undertaken to assist in mitigation of traffic interruption. Mitigation would be needed in places, including traffic barriers, and even temporary relocation of residents.

Compensation of loss or reduced rental income during construction.

[857] South of SH16, some PPFs are located on a ridge above the road such that placing a barrier along the road edge would be ineffective. There would also be disadvantages from shadowing and visual effects. In places a barrier could be erected of between 2 and 4 metres in height, offset from property boundaries, but we wonder about the visual effects of that. If that mitigation were to be carried out, Ms Wilkening considered that there was only one building in this area, 26A Carrington Road, which would need to receive category C mitigation.

I have a property in the so mentioned ridge above the road. It placing a barrier on the road edge is ineffective, how is it going to be effective placing a barrier on the ridge seeing that noise travels upwards.

The shadowing and visual effect is obviously an issue (not a wonder). This is not effectively address in the wording of this document. Please reword to address what is the actual decision on this matter.

Regards

Denis

**Subject:** Waterview Connection Proposal - Draft Decision

Good Morning All,

This email is to advise you that the NZTA Waterview Connection Proposal Draft Decision is being released today. It is available on the Board of Inquiry's website - <http://www.epa.govt.nz/applications/waterview/report-and-decision/index.html>.

As submitters in this process you will be sent a copy of the report, hard copy for those who wished for postal service and a CD for those who prefer electronic service. Please call me asap on 0800 426 8439 if you do not receive it by Friday.

Please note you are able to make comments on the report to the Board. Your comments should relate to minor or technical aspects of the draft report only; this is not an opportunity to provide new information to the Board.

Under section 149Q(5) of the RMA you **may** comment on:

- minor errors in the report
- the wording of conditions specified in the report
- any omissions in the report (for example, if the report does not address a certain issue brought up through submissions or at the hearing).

If you have any questions at all please feel free to email or call – [waterview@epa.govt.nz](mailto:waterview@epa.govt.nz) or 0800 426 8439.

Regards,

Kim Morgan, Project Leader, Nationally Significant Proposals
