**JOINT MEMORANDUM OF COUNSEL ON BEHALF OF THE  
NZ TRANSPORT AGENCY AND AUCKLAND COUNCIL/AUCKLAND  
TRANSPORT IN RELATION TO THE BOARD OF INQUIRY'S MINUTE  
AND DIRECTIONS DATED 24 MAY 2011**

- 1 This Memorandum is written in response to the Minute and Directions of the Board of Inquiry (*Board*) dated 24 May 2011 requiring certain matters to be lodged with the EPA for transmission to the Board by 8 June 2011. These matters are:
  - 1.1 Adding a column in Schedule B of the Proposed Conditions of consent, listing by number which conditions attach to each of consents and designations there listed (Minute, paras 3-4);
  - 1.2 Rechecking the contents of Schedule A of the Proposed Conditions of Consent for accuracy and completeness (Minute, paras 5-9);
  - 1.3 Correcting the references to various conditions (Minute, paras 10-11); and
  - 1.4 Providing some new and general dispute resolution clauses in the DC and RC sections of the Proposed Conditions of Consent (Minute, para 12).
- 2 This Memorandum explains the process followed by the NZ Transport Agency (the *NZTA*) and various parties and experts in order to achieve the matters directed by the Board, and will provide the matters requested (see Annexures A-D).

**Schedule B**

- 3 In response to the Board Directions, the NZTA's consultants prepared an initial draft set of tables which cross-referenced the proposed conditions to each consent and designation, to be included in Schedule B.
- 4 Those tables were circulated to parties on 31 May 2011 for review and comment, feedback.
- 5 Feedback and comment was received from Auckland Council / Auckland Transport, with the Albert-Eden Local Board indicating that they considered Council best placed to comment on the Schedule.
- 6 The updated Schedule B, with additional column provided, is now attached as **Annexure A**. The descriptions of Consents have been amended to reflect the summary provided in the Board's Draft Report (at paragraphs 23, 24 and 25.)

**Schedule A**

- 7 Schedule A is a schedule of all drawings and plans and key management plan amendments concerning the Project.

- 8 As directed, the NZTA has rechecked the contents of Schedule A (see Volume 2 of the Board's Draft Report and Decision) for accuracy and completeness, using suitably qualified and experienced personnel.<sup>1</sup>
- 9 The NZTA has sought feedback from all parties on Schedule A and also conferred with various parties, in particular Auckland Council/Auckland Transport (through planner Tania Richmond).
- 10 The matters in Schedule A which the Board identified as needing to be corrected are addressed in the table below. The "Comment" column confirms the corrections made and, as directed, identifies any matter where the experts (Amelia Linzey and Tania Richmond) do not agree with the change as identified by the Board, together with reasons and what they consider to be the correct information.

<b>Row Number (in 13 May '11 clean copy version)</b>	<b>What Board considers correct reference to be</b>	<b>Comment</b>
1 (line 2)	Rev B	Correct and has been amended
9 (line 1)	Remove "-3" from the plan number, to match the plan number in the documentation, i.e. 20.1.11-D-N-917-210, 220, 221, 230, 231 and 251.	Correct and has been amended
9 (line 4)	The Board has been unable to identify the drawings cited in the project documentation and directs the NZTA to advise whether they exist, and if they do, whether they remain relevant. If relevant, NZTA is to provide copies of the plans to the Board and the parties and amend Schedule A to include references to the drawings' revision numbers and their location. If the drawings do not exist or are no longer relevant, NZTA is to remove all reference to them from Schedule A.	Confirm this has been withdrawn and Schedule shows it deleted
9 (line 11)	Plan Number 004A to be removed and the Location of 004B amended to refer to Exhibit 8.	Correct and has been amended
9 (line 12)	Row can be removed.	Deleted
10 (line 1)	Row to be deleted.	Deleted

21 (line 1)	Amend sheet references to read 140-142 and 144.	Correct and has been amended
23 (line 9)	Sheet 210 should read 201.	Correct and has been amended
23 (line 2)	Sheet 220 should read 200.	Correct and has been amended
24 (line 5)	Sheet 301 should read Rev A and Sheets 302 – 303 should read Rev B.	All references should actually be to Rev B. Incorrect reference on Sheet 301.
27 (line 1)	Should read Rev 2.	Figure G1 is Rev 1, Figures G2 to G4 are Rev 2. These latter references have been corrected.

Row Number (in 13 May '11 clean copy version)	What Board considers correct reference to be	Comment
30 (line 1)	Should read Rev A.	Correct and has been amended.
31 (line 1)	Exhibit number to read <u>4</u> not 5.	Correct and has been amended.
33 (line 1)	Board cannot locate an Option 1 drawing in the ACC submission but there are Option 2 drawings. (Board comment: NZTA to check documentation, including with council if necessary and address as appropriate.)	The PDF version from EPA was scanned out of order. NZTA has included a copy of the plans given in this submission on the CD with revised Schedule A.
34 (line 1)	Reference should be to Rev <u>A</u> not 401.	Correct and has been amended
36 (line 1)	Board cannot locate a Rev reference. Relevant document is contained in Annexure <u>C</u> and not B.	Correct and has been updated. It is noted that the Revision 1 reference in title block.
41 (new line 1)	Add reference to "Urban Landscape and Design Framework – Section C" under Plan Set Title	Added as directed by the Board, subject to comments below.

### **Section C, ULDF**

11 While reference to Section C of the ULDF has been included as directed by the Board:

11.1 Auckland Council/Auckland Transport advises that it wishes to consider the application of Section C further and provide comments on it (if necessary) as part of their Comments on the draft Decision under s 49Q(4) of the RMA; and

11.2 The NZTA has concerns with including reference to Section C of the ULDF in Schedule A<sup>2</sup>, particularly as the Project's

<sup>2</sup> The NZTA is concerned with the additional wording in Condition LV.2(j) which reads: "... (also eg bridges, piers, retaining walls and tunnel portals in accordance with Section C: ULDF June 2010 – refer Schedule A, Row ? [tbc]."

design vision and principles are specifically contained in Section B.<sup>3</sup> Its concerns will be addressed in more detail in the NZTA's Comments on the draft Report and Decision.

**Other Schedule A matters**

- 12 In reviewing Schedule A, a number of other minor corrections have also been made and the Schedule updated.<sup>4</sup>
- 13 The NZTA confirms that it has complied with the Board's direction that *"any plans contained within Part F of the application as lodged that refer to the withdrawn NOR 6, or have otherwise been replaced or withdrawn since they were lodged, are to be considered redundant and removed from Schedule A"*.
- 14 Finally, Schedule A, Row 6, has been updated to now refer to the drawings regarding Construction Yard 7 (as submitted with NZTA's Memorandum of Counsel dated 13 May 2011).
- 15 The updated Schedule A is attached as **Annexure B**. (Changes to the Schedule are shown in "green-line"). To assist, the NZTA has compiled the latest drawings on a single CD for the Board noting either Drawing set reference (e.g. when extracted from Part F of the AEE) or their Row reference in Schedule A.

**Condition references**

- 16 The matters in the conditions which the Board required to be corrected are addressed in the table below, by completing the "Consent" column.

Condition Number	What Board considers correct reference to be	Comment
DC.1A(g)	Rows 36 and 37	Reference to Row 38 has been removed. However, additional changes to CNVMP proposed and accepted by Housing NZ Corp (Row 39) have been added. Changes also made to RC.3(g) in same manner.
RC.3(c)	Add Row 34	Amendment added, similarly made to

<sup>3</sup> Section B contains specific reference to bridge design (Section B5.3), tunnels and portals design (B5.4), noise walls design (B5.5), retaining wall design (B5.6), and highway furniture design, including gantries, barriers and fencing (B5.7).

<sup>4</sup> Such corrections are shown in "green-line" in **Annexure B**.

Condition Number	What Board considers correct reference to be	Comment
		DC.1A(c)
CEMP.6	In introductory paragraph the words after colon to be sub-paragraph (a) with consequential changes.	Amendment made
OS.5	Advice Note Row reference to read 28	Amendment made
G.10	Change all drawing references to read 20.1.11-3-D-N-910 set. (Comment: 13 May version reads 20.1.11-3-D-C-910).	Amendments made

- 17 The relevant conditions, as corrected, are contained in **Annexure C.**<sup>5</sup>

#### **Dispute resolution provision**

- 18 In its Minute, the Board noted:

“In paragraph [1394] of our Draft Decision and Report, we noted that one of our Directions issued 7 May had not been carried out. We had commented that CEMP.14 did not appear to go far enough concerning dispute resolution over implementation, monitoring, approvals, and enforcement of conditions. We recorded that there should probably be some new and general dispute resolution clauses in the DC and RC sections. Draft conditions on this topic are once again to be lodged with the EPA for transmission to the Board for its consideration by **8 June 2011.**”

- 19 The Board’s 7 May Direction (para 2.7) expressing concern that CEMP.14 “would not appear to go far enough to cover this”, specifically referred to Condition OS.5 should there be any dispute between the NZTA and Auckland Council as to whether a financial payment in lieu would be sought by Council. Given the parties’ agreed position on that issue, the experts considered there was no need to further amend CEMP.14 to address that particular situation.
- 20 In response to the Board’s request for some new and more general dispute resolution clauses in the DC and RC sections, it is noted that:
- 20.1 Condition DC.5 already provided a dispute resolution clause in relation to the Council’s approval or certification processes. That condition has now been amended by expanding it further

<sup>5</sup> The “green-line” on the conditions shows the changes made.

to cover any dispute over implementation and monitoring;  
and

20.2 A new Condition RC.5 to like effect has been added.

- 21 It is noted that the proposed conditions do not expressly refer to "enforcement". This is because the parties are concerned that the conditions should not prejudice the ability of any person (including directly affected third parties) to take enforcement action under the RMA (e.g. by seeking an enforcement order).<sup>6</sup> However, an Advice Note is proposed that explains the relationship between the dispute resolution process provided for in the conditions and the rights to take enforcement action under the RMA.
- 22 The amended and new dispute resolution Conditions are contained in **Annexure D**.

**Summary**

- 23 Accordingly, the following documents are now lodged on behalf of the NZTA and various experts and parties who provided feedback (noting that various parties' interests are confined only to specific conditions):
- 23.1 **Annexure A** – Updated Schedule B to the Proposed Conditions of Consent;
- 23.2 **Annexure B** – Updated Schedule A to the Proposed Conditions of Consent;
- 23.3 **Annexure C** – Corrections made to various condition references; and
- 23.4 **Annexure D** – Amended and new dispute resolution clauses.

## ANNEXURE D – AMENDED AND NEW DISPUTE RESOLUTION CLAUSES

### Amended Condition DC.5:

In the event of any dispute ~~or~~, disagreement or inaction arising as to any Auckland Council Manager certification/approvals required by these designation conditions, or as to the implementation of or monitoring required by the conditions, matters shall be referred in the first instance to the NZTA Regional State Highway Manager and to the Resource Consents Manager, Auckland Council to determine a process of resolution.

If a resolution cannot be agreed, then the matter may be referred to an independent appropriately qualified expert, agreeable to both parties, setting out the details of the matter to be referred for determination and the reasons the parties do not agree.

The independent appropriately qualified expert shall be appointed within 10 working days of the NZTA or Auckland Council giving notice of their intention to seek expert determination. The expert shall, as soon as possible, issue his or her decision on the matter. In making the decision, the expert shall be entitled to seek further information and hear from the parties as he or she sees fit.

Advice note: The dispute resolution process provided for in this condition does not prejudice any party's right to take enforcement action in relation to the implementation of the designation conditions. However, the dispute resolution process will be applied before any formal enforcement action is taken by the Council.

### New Condition RC.5:

In the event of any dispute, disagreement or inaction arising as to any Auckland Council Manager certification/approvals required by the consent conditions, or as to the implementation of or monitoring required by the conditions, matters shall be referred in the first instance to the NZTA Regional State Highway Manager and to the Resource Consents Manager, Auckland Council to determine a process of resolution.

If a resolution cannot be agreed, then the matter may be referred to an independent appropriately qualified expert, agreeable to both parties, setting out the details of the matter to be referred for determination and the reasons the parties do not agree.

The independent appropriately qualified expert shall be appointed within 10 working days of the NZTA or Auckland Council giving notice of their intention to seek expert determination. The expert shall, as soon as possible, issue his or her decision on the matter. In making the decision, the expert shall be entitled to seek further information and hear from the parties as he or she sees fit.

Advice note: The dispute resolution process provided for in this condition does not prejudice any party's right to take enforcement action in relation to the implementation of the resource consent conditions. However, the dispute resolution process will be applied before any formal enforcement action is taken by the Council.
