

SH5/30 Hemo Road intersection improvements

The objectives of the \$7.3 million intersection safety improvements are to:

Reduce death and serious injuries at NZ's fourth riskiest intersection

Provide cycling and pedestrian access

Provide reliable journey times

On track to be completed in mid-2017

The new roundabout will:

- » Increase safety at this high-risk intersection
- » Enhance connectivity with the surrounding area and local roads
- » Provide cycle and pedestrian access across the state highway and integrate it with the national cycleway
- » Create a gateway to Rotorua in partnership with RLC and the local tourism businesses
- » Provide enhanced stormwater treatment
