Waka Kotahi NZ Transport Agency recently applied for RMA consents to construct and operate the Ōtaki to north of Levin highway and shared use walking and cycling path. A speaker event is being hosted for communities covering:

- the RMA consents process
- design of the proposed road including local road connections
- landscape and planting design
- impacts of Ō2NL and how these will be managed.

Our team will also be available before and after the presentations to discuss and provide information about the project and its construction.
