Grid Reference Easting 26 8 6 9		Northing 60 4 0 4	
1. Aids to relocation of site ( <i>attach a sketch map</i> ) South of Te Horo. Adjacent to, and visible from, State Highway 1 on west side of road, north of Te Hapua Road intersection. On low dune in midst of low-lying ground. Grid Reference is to pit seen, but extensive area to west of State Highway 1 has features of various sorts showing on aerial photographs.			
2. State of site and possible future damage In pasture. Well-defined, deep, and apparently in good condition.			
3. Description of site ( <i>Supply full details, history, local environment, references, sketches, etc. If extra sheets are attached, include a summary here</i> ) From the State Highway only a single pit is clearly visible but reference to 1948 aerial photographs reveals a range of pit and other features in the vicinity. It is not clear what activity this represents, nor its antiquity, nor whether Maori or other. Seen on its own, the pit adjacent to the Highway might be Maori but in the wider context this is uncertain. Since 1948 there has been numerous houses built, trees planted, etc on the land in vicinity that may well have had an impact on survival of other features.			
4. Owner Not known Address		Tenant/Manager Address	
5. Nature of information ( <i>hearsay, brief or extended visit, etc.</i> ) Photographs ( <i>reference numbers and where they are held</i> ) Aerial photographs ( <i>reference numbers and clarity of site</i> )		Seen in passing on numerous occasions. Aerial photographs. No RN 308/3-4 dated 28-4-1948 shows clearly-
