

SH2 POKENO TO MANGATARATA

RECOMMENDED PROGRAMME

Short term to medium term initiatives (entire route)

- Implementation of speed management along corridor.
- Secure designation and property for long term solution, subject to funding.
- Implement travel demand initiatives including trip reliability information tools.

Medium term initiatives

- Upgrade the Pokeno interchange and provide additional capacity on Section A to enable safe transition onto SH2 and merge onto SH1

Medium term to long term initiatives

- Implement safety improvements based on priority - central median barriers, passing opportunities and at-grade intersections along Section B
