

NOT FOR CONSTRUCTION

Scale 1:12,000 (A1)

FOR CONSULTATION

STATUS - DRAFT 1

February 2013

Job Number: Z1873604

Woodend Corridor
Short Eastern Alignment Route
Protection and Timing Implications

Attachment 2

Note: NZ Topographic data is created at a 1:50,000 scale and when viewed at smaller scales such as 1:2,000 the inaccuracies of position are seen. This is normal and is to do with the fact the data was created as a general dataset to be used at 1:50,000.
