

# SH5 and SH30 Rotorua new permanent speed limits

Electronic variable school zone signs are an enforceable speed limit that can be activated during peak school traffic times.

The school zone speed limit will operate from 35 minutes before school until the start of school, and from five minutes before school ends until 20 minutes after school ends. It may also operate for 10 minutes at any other time when there is school related activity on the road.

When the Whakarewarewa School variable speed zone is active the proposed speed limit is 30km/h and will be displayed on an electronic sign. At all other times, when the sign is blank, the proposed speed limit is 50km/h.
