WALKING & CYCLING IMPROVEMENTS

A number of exciting walking and cycling improvements are being delivered as part of the Southern Corridor Improvements Project and will be completed by the end of 2019.

These include:

- Shared paths along both sides of Great South Road through the Takanini Interchange
- A new 4.5km off-road 3m wide shared path for pedestrians and cyclists along the northbound side of the motorway between Takanini Interchange and the Papakura Interchange
- A new pedestrian overbridge to cross the motorway near the Pahurehure Inlet between Papakura and Karaka Harbourside.
