

What we are doing

Takitimu North Link Stage One will connect Tauranga and Te Puna with a new 4-lane expressway and shared path. It will improve safety, access, resilience, and provide greater travel choice. As part of the project a new overbridge at Cambridge Road is being built and major works currently underway will connect the bridge to the existing Cambridge and Moffat roads.

The following activities will occur during this closure:

- Digging out the existing pavements and realigning the road level to the required height.
- Pavement construction.
- Footpaths, road signage, road markings and landscaping installation.

Traffic management

Careful consideration has gone into recommended alternative routes for both light and heavy vehicles during the closure of a section of Moffat Road.

Safety is our primary concern, especially for the residents in the affected area. There are pedestrians and cyclists, some of whom are children, as well as residents' cars and other vehicles in this area. Increased volumes of traffic poses a significant risk to their safety.

For this reason, we encourage people to take the recommended routes as outlined in the map, not short cuts, and plan for additional travel time.

What you need to know

- Our standard construction work hours are Monday to Saturday between 7am and 6pm.
- There will be increased noise and vibrations associated with most of this construction work. We will do what we can to minimise this.
- Keep yourself and your children, as well as pets at a safe distance from the work site.
- All work sites are subject to weather and other unforeseen conditions.
- There will be temporary speed reductions in place while this work is undertaken. Please follow on-site traffic signage and instructions from our team.

Major works on the Takitimu North Link project will require a full closure of a section of Moffat Road, Bethlehem, for three months from January 2024 until April 2024.

This will be a significant disruption to travel through this area with local alternative routes for light vehicles and heavy trucks to use State Highway 29/Takitimu Drive Toll Road.

23-SH-178

Cambridge Road overbridge tie-in works

Road closure and alternative routes

January - April 2024*

There will be a road closure on a section of Moffat Road outside the Tauranga Adventist School to Cambridge Road East.

Key

 **Road closed**

 **Light vehicles**

All light vehicle traffic will be required to use alternative routes, the preferred route is via Cambridge Road East to Waihi Road.

 **Heavy vehicles**

All heavy vehicles (above 15T) will need to use SH29/Takitimu Drive Toll Road which will be toll exempted for heavy vehicles only during this time.

*Dates of closure may change.
