

# Kenepuru Interchange

Connecting Porirua city centre and Tawa with the Transmission Gully motorway, via a new link road which crosses the existing SH1 and North Island Main Trunk railway line at Kenepuru. A new roundabout connects the link road with Kenepuru Drive. The Kenepuru Interchange has both north and southbound on-ramps to the new motorway. It also has a southbound off-ramp for motorists traveling from Kāpiti or the Hutt Valley (via SH58) to Porirua city. Motorists travelling northbound from Wellington to Porirua City Centre or Plimmerton, should continue to use their usual route - such as the off-ramp at Mungavin Avenue.
