This note advises of the decision of the incumbent CoPTTM ROPE assessor to cease his provision of service on 31 December 2019.

Many of you will be aware that Mr. John Boyson has diligently provided this service to and on behalf of Transit NZ, more recently the NZ Transport Agency and to the wider industry over many years.

The ROPE process was created as a platform to enable STMSs with practising warrants to renew their practising warrant which John has managed through robust interrogation of documentation and a fair and reasonable communication plan which has been challenging though successful for all requestors through his consistent application of that process.

As John is now moving into the next phase of his life the mantle falls to myself to pick up in the interim the work that he is now handing over.

I would like to take this opportunity to thank John and his wife Priscilla for the service they have provided over the years and offer the sincere wish that whatever they decide to do with their time moving forward is as successful and rewarding as they may wish.

The new contacts for the ROPE applications are as follows:
