Glossary

NZ Transport Agency

On 1 August 2008, Land Transport NZ and Transit NZ became the NZ Transport Agency (NZTA). The NZTA brings together the functions and expertise of Land Transport NZ and Transit NZ to provide an integrated approach to transport planning, funding and delivery.

NAASRA

Road roughness is measured by a system developed by the former National Association of Australian State Roading Authorities (NAASRA). Values are obtained by a special-purpose vehicle travelling down both outside lanes of the length of a road. The rougher the road, the higher the NAASRA counts per lane km. A NAASRA count over 150 typically indicates a road that's becoming a concern in terms of its roughness and the number of complaints likely to be generated.

Activity classes for the year ended 30 June 2009 have been defined in the NZTA's *Planning, programming and funding manual* (published in 2008).

Work categories for the year ended 30 June 2009 have been defined in the NZTA's *Planning, programming and funding manual* (published in 2008).
