

# My booster comes with me

1 I sit in my booster and reach for my belt.

2 I check my belt is on my shoulder.

**3** My belt goes under the arm rest, then I make it **click**.

**4** My belt is touching my thighs and sits firmly against me.

# My booster seat checklist

**1** I sit in my booster and reach for my belt.

**2** I check my belt is on my shoulder.

**3** My belt goes under the arm rest, then I make it **click**.

**4** My belt is touching my thighs and sits firmly against me.

**I want  
to stay  
safe**

**My  
booster  
comes  
with me  
until I'm  
148cm  
tall.**

# It is the law that:

- all children under seven must be secured in an approved child restraint appropriate for their age and size
- children aged seven must be secured in an approved child restraint if one is available in the vehicle, and if not, in any child restraint or safety belt that is available.

**Best practice recommends that children stay in a restraint or booster seat until they're 148cm tall**

Retailers and other organisations may have certified child restraint technicians who can provide you with advice and assistance. Certified child restraint technicians are trained to NZ Qualifications Authority unit standards.

For more information on how to safely use child restraints and to find your local child restraint technician, visit:
