

## Obtaining certification to Transit Standard TQS1: 2005

### What will it cost – How long will it take?

The following figures are for costs of ISO 9002 certification, they were taken from the NZS Business Nov 1994. The cost for TQS1 certification should be slightly lower.

*A recent telephone poll of costs for the smaller sized enterprises indicated that the price has dropped and is likely to be lower than the bottom figure in the range.*

These figures are approximate only, check with your certification body who will give more accurate costings:

Less than 30 employees	\$4,800 - \$8,100	(Phone poll \$2,000 - \$5,000)
25 – 100 employees	\$5,400 - \$9,700	
75 – 250 employees	\$5,900 - \$16,200	

### The time

Pre-audit visit	(½ - 1 day) May combine
Document review	(½ - 1 day)
Initial audit	1 person for 2 days
Surveillance audit	1 day twice a year (9002) or once a year (TQS1)

These costs exclude your internal costs for preparation of manual, writing procedures, and work instructions

### Who can help me?

A series of workshops may be available to help you prepare for TQS1 or TQS2.

For further information contact either:
