43 New Schedule 8 added

The principal rule is amended by adding the new Schedule 8 set out in Schedule 3.

Schedule 1
Objective of rule

1 This rule amends the Land Transport (Driver Licensing) Rule 1999 (SR 1999/100). That rule sets out the classification of driver licences and endorsements. It also sets out the requirements for obtaining, renewing, and replacing driver licences

and endorsements, and for suspending, revoking, and surrendering driver licences and endorsements. It also includes requirements relating to the provision of services for driver licensing. It has previously been amended by the Land Transport (Driver Licensing) Amendment Rule 1999 (SR 1999/302).

- 2 The principal objective of this amendment of the rule is to address problems arising in relation to the administration of the rule and to respond to the needs of the public made known to Land Transport New Zealand (formerly LTSA).
- 3 The proposed amendments are intended to make the driver licensing system more sensitive to the needs of people, to improve efficiency, and to reduce compliance costs where possible. The proposed changes include specific proposals for novice drivers, commercial drivers, older drivers, and holders of overseas driver licences and permits.
- 4 In summary, this amendment of the rule—
 - reduces the time that a lower class of full licence must be held before a learner licence of a higher class may be obtained for drivers aged 25 years and over; and
 - changes certain conditions relevant to Class 1L and 6L licences; and
 - allows passenger, driving instructor, testing officer, and vehicle recovery endorsements to be renewed before their expiry dates; and
 - provides further exemptions for personnel of the New Zealand Defence Force; and
 - extends the circumstances when a passenger endorsement is not required for escorting lawfully detained persons; and
 - clarifies the persons who may administer practical driving tests; and
 - extends the powers of the Director to require a licence holder to complete an approved course; and

- clarifies the circumstances in which practical driving tests may be terminated; and
 - enables the period of validity of a driver licence to be extended; and
 - allows a person to renew a licence without requalification if the licence has been expired for up to 5 years rather than up to 12 months; and
 - provides for circumstances when the automatic transmission condition can be removed from licences of older drivers; and
 - extends and clarifies the requirements relating to the conversion of an overseas driver licence to a New Zealand driver licence; and
 - requires an overseas driver with an overseas driver licence not written in English to carry an English translation of the licence; and
 - substitutes *Schedule 3* and raises weight limits for certain licence classes; and
 - adds a discretion in *Parts A, B, C, E, and F of Schedule 6* to conduct tests in different situations from those specified; and
 - aligns the restricted licence test for Classes 1 and 6 (*Part E of Schedule 6*) with the full licence test (*Parts A and B of Schedule 6*), and the older driver test (*Part F of Schedule 6*); and
 - sets out the requirements for the practical test for testing officers in relation to conducting the new restricted licence test (*Schedule 7*); and
 - adds new *Schedule 8* that lists the countries from which a holder of a valid overseas driver licence or permit is not required to sit a practical driving test.
-

cl 5

Schedule 2
Consultation carried out under section 161(2) of Act

- 1 The proposed changes affect general drivers, novice drivers, commercial drivers, older drivers, and holders of overseas driver licences and permits.
 - 2 Some proposals arise from recommendations made in the independent report on the *Review of the Cost and Management of the Driver Licensing Regime*, which made some policy and administrative recommendations on improving the sensitivity of the driver licensing system. Land Transport New Zealand has also proposed some administrative changes to the rule to make the driver licensing system simpler and to reduce compliance costs.
 - 3 Consultation on the rule began in June 2002 when the public consultation (yellow) draft of the rule was made available. The draft rule was made available to people who registered an interest in the rule and it was also put on Land Transport New Zealand's website and was sent to libraries and transport organisations overseas. Land Transport New Zealand publicised the availability of the rule in 15 metropolitan and regional newspapers, the *Gazette*, and *Te Maori News*.
 - 4 A final round of consultation was undertaken in August-September 2004 on 8 additional proposed amendments that relate to the licensing of overseas drivers. This consultation was undertaken because of increasing public concern about the incidence of accidents involving overseas drivers.

Part E
Restricted licence and full licence tests

Subpart 1—Restricted licence test (Classes 1 and 6)

- 1 The restricted licence test (Classes 1 and 6) must be conducted in 3 parts as follows:
 - (a) Part 1 must be conducted in a low speed area (up to 60 km/h) and assesses the applicant's ability to safely and legally control a motor vehicle in simple driving situations:
 - (b) Part 2 must be conducted in a low speed area (up to 60 km/h) and assesses the applicant's ability to safely and legally control a motor vehicle in more complex driving situations (eg, higher traffic density, multiple lane roadways, or intersections):
 - (c) If practicable, Part 3 must be conducted in a higher speed area (70 to 100 km/h) and assesses the applicant's ability to safely and legally control a motor vehicle in more complex driving situations (eg, higher traffic density, multiple lane roadways, or intersections).

- 2 With the approval of the Director, a maximum of 2 traffic situations may be conducted in a lower speed area, or in a different location, from those specified.

- 3 If the restricted licence test (Class 6) is conducted, the "Mirror Use" criteria must not be assessed or included in the calculation of the test score.

Part F
Older driver test

- 1 The older driver test must be conducted in 3 parts as follows:
 - (a) Part 1 must be conducted in a low speed area (up to 60 km/h) and assesses the applicant's ability to safely and legally control a motor vehicle in simple driving situations:
 - (b) Part 2 must be conducted in a low speed area (up to 60 km/h) and assesses all of the performance criteria in Part 1 and hazard detection. Applicants must be asked to detect significant traffic hazards in 1 of 6 different traffic situations:
 - (c) Part 3 must be conducted mostly in medium speed areas (60 to 80 km/h) and assesses all of the performance criteria in Part 2. Applicants must be asked to detect significant traffic hazards in 1 of 4 different traffic situations.
- 2 With the approval of the Director, a maximum of 2 traffic situations may be conducted in lower speed areas, or in different locations, from those specified.
- 3 The applicant's performance must be marked according to the form set out in this Part. To pass, the applicant must have a total score of at least 80% "Yes" marks across Parts 1, 2, and 3 of the test.
- 4 The applicant's performance in Part 1 of the test must be calculated at the completion of that Part. If the applicant does not score at least 80% "Yes" marks in Part 1, the test must be terminated and the applicant treated as having failed the test.
- 5 The abbreviations used in the form set out in this Part are as follows:

Dated at Wellington this 22nd day of March 2006.

Minister for Transport Safety.

Explanatory note

This note is not part of the rule, but is intended to indicate its general effect.

This rule amends the Land Transport (Driver Licensing) Rule 1999. The majority of the amendments come into force on 1 June 2006. However, clauses 17(2) and 41(3), as they relate to the restricted licence test (Classes 1 and 6) come into force on 1 July 2006, meaning that the restricted licence test (Classes 1 and 6) applies on and after that date.

The rule is an ordinary rule made under the Land Transport Act 1998.

The objective of the rule is set out in *Schedule 1*.

Issued under the authority of the Acts and Regulations Publication Act 1989.
Date of notification in *Gazette*: 30 March 2006.
This rule is administered in the Ministry of Transport.
