

TNZ C6: REPLACEMENT 2006
SPECIFICATION FOR REPAIR OF SURFACE DEFECTS
REPLACEMENT

HM11 Surfacing now replaces specification TNZ C6 Specification for Repair of Surface Defects.

However, if TNZ C6 is referred to in existing contract documents then you may continue to use it. Alternatively you could use MR09 Pre-surfacing Repairs if you plan to include all of the following specifications in a single surfacing contract: C4, C5, C6, C7 and C8.
