### Approved trials of traffic control devices – information

Under subclause 3.4(1) of the Land Transport Rule: Traffic Control Devices 2004 the NZ Transport Agency (the Agency) may authorise a road controlling authority to install and maintain a traffic control device for trial purposes.

The purpose of this note is to advise of traffic control device (TCD) trials approved by the Agency (or prior to 1 August 2008 by the Director of Land Transport). Attached are brief details of each of the trials (including contact details for further information) and copies of the notices published in the NZ Gazette authorising the trials. It is intended any newly approved trials will be appended to this note. As trials are finalised the results and proposals arising will also be outlined.

The Agency's approval procedures for TCD trials are outlined in Traffic Note 10.

<b>Appendix</b>	<b>Version</b>	<b>Trial name</b>	<b>Road controlling authority</b>
Appendix 1	Final	Ramp metering signal	Transit New Zealand
Appendix 2	Revision 2 (Final)	Pedestrian crossing zigzag marking	Auckland City
