Hi s 9(2)(a)
They will be looking at the video footage this Monday .
They cant get to it any sooner.
I will get back to you as soon as they have something.

Regards,

s 9(2)(a) | Senior Level Crossing Engineer CPEng, CMEngNZ

Hi s 9(2)(a)

How is the consultant getting on with the footage from Telephone Rd?

Many thanks

Hi s 9(2)(a)

I have passed your advice onto our consultant

They will get back to me if they find any video evidence of the incident

Regards

Hi s 9(2)(a)

As discussed earlier, I think from 1530 to 1820 Thursday 24th March will be sufficient.

Key vehicles to look out for are;

- Trucks with low loader trailers (anything carting heavy machinery e.g..., diggers, loaders etc...)
- Car transporter trucks
- Heavy farm machinery

s 9(2)(a) Can you think of anything else that I have missed?

<image002.png>

Hope this helps.

Many thanks

Hi Sean

Do we approximately know the time of the incident and day?

Our camera mounted at the level crossing for a research trial maybe able to locate the video footage of the incident.

Hi s 9(2)(a)

Here is some more photos and correspondence on the Telephone Road crossing incident.

I have designed a broken rail detector circuit and will discuss this with s 9(2)(a) this afternoon. This is probably the most important thing to get done in the whole region at the moment. This is the third incident of its kind in the same spot, all with the luckiest escapes for KiwiRail but I fear that luck won't continue.

We need to get a roading engineering solution to the steep slopes either side of that crossing as soon as possible and that process needs to start today.

Regards

If you didn't get the photos there's some attached. Also s 9(2)(a) is a hero apparently.

Cheers

Firstly, thank you s 9(2)(a) for an outstanding job to get the line open as quickly as you did. I'm sure there was a larger team there so please pass on my gratitude to all involved.

s 9(2)(a)

Can you arrange another meeting with NZTA ASAP over this crossing, we need a change to the approach grade, ban on long/low vehicles or what ever it takes to prevent a major incident at this crossing. This is the third time in as many years were a section of rail has been opening out of the track by truck. There will be a derailment at this location, its only a matter of time. No one can accept that risk so this needs to be escalated to the highest level

Nga mihi

s 9(2)(a) Regional Infrastructure Leader, CNI Operations
