Kia ora Out of Scope

Please find attached our Scope for Implementation Funding. Sorry we couldn't get this to you any sooner, we have been working this up with a few different people so it took longer than we thought.

Hopefully we've provided the information you need to moderate on, let me know if you need more. One thing I'm not sure it covered off was the appetite shown by our community groups to find funding for events and art from alternative sources, we have a few options to align this funding with others so it covers what we need for the projects to be successful – something this funding would start off a domino effect for once we know if we are successful.

Nga mihi,
