Hi Out of Scope

Please find below paragraphs that our comms teams have approved of:

Project 1 – Safer Crossing on SH35 and community meeting space - Uawa

This project is located in Uawa (Tolaga Bay) on the East Coast north of Gisborne. The Gisborne District Council have committed to installing a cycle trail around the area to enable active journeys for the local community who have championed the project. SH 35 runs through the centre of the community and is a busy road which has a high volume of logging trucks. The Streets for People programme provides an opportunity to trial enhancing the two existing pedestrian crossing areas on the state highway, provide for a separated cycleway to link to the trails as well as creating a space for the community to gather in the

main street at their Marae. The potential problems will be around catering for the large logging trucks which provide a lot of business to local retailers and need places to park – we need to ensure we retain sufficient parking area to encourage drivers to rest and avoid driving with fatigue.

Project 2 – Linear Park, Grey Street

This project is located in Grey Street in the Gisborne city area. Grey Street connects the Taruheru River to Waikanae Beach through the main CBD. The I-Site is located here and is the arrival and departure point for the intercity bus. The commuter bus also travels along here and there are strong links to the active network. A local community group (Tairāwhiti Adventure Trust) have championed this project. They have installed a pump track next to the I-Site and are expanding the skate park on Grey Street with future ideas for an indoor climbing wall at the I-Site. Currently the connection from the CBD to the I-site, skate park and pump track is uninspiring and does not encourage active journeys between the CBD and the facilities. We anticipate the linear park being able to be a multi-purpose site for community and cultural events. We expect there may be problems around community perception of the linear park being limited to between Childers Road and Waikanae Stream and therefore not connecting river to sea. This is due to the cost and complexity of addressing CBD parking and SH35 and either end

Hi s 9(2)(a)

I realised I don't actually have a Comms and Engagement contact for you at Gisborne District Council.

Can you please send through to me and note the requirements below for paragraphs on your projects.

If you can please send to me by Monday that would be great. I'll give you an additional day(!) as it was my fault I inadvertently didn't include the C&E person for Gisborne. So sorry about that!

Thanks and appreciate your help.

Subject: Streets for People programme - paragraphs: deadline Friday 5 August

Kia ora koutou

We hope you are well.

In early September we will be announcing the successful councils who will be moving forward into full implementation of projects for the Streets for People programme.

We need to provide a draft media release to the Minister's office by mid-August and we'd like to include a brief synopsis of the successful projects.

To prepare for this, we require a brief summary (no more than 5 sentences) that we will use if you and your project(s) are successful in gaining funding to participate in the Streets for People 2021-24 programme. Please note, we are currently oversubscribed so not all projects will gain funding from Streets for People.

Can you please send us a separate paragraph for each of your projects outlining:

- Name of project
- Where the project is/location
- Current problems
- Objectives/aims of the project – what you are trying to achieve

Please ensure you provide no more than 5 sentences for each project, that each of your paragraphs are signed off on your side for public release and send to me by Friday 5 August.

If any one of your projects are successful, then we will be using the paragraph you have sent about that project in the Waka Kotahi national press release.

Thanks and appreciate your help.
