Speed review decision - Northland-north Auckland Speed Reviews

The Director of Land Transport approved the Northland-north Auckland speed limit changes on 11 December 2023.

No announcements or implementation is intended at this time. We will share our plans for engaging with the community and stakeholders with you early next year prior to implementation.

The speed limit changes include 16 townships, 34 kura/schools and eight marae across Northland and north Auckland. There is one open road section 4.7 km long on State Highway 1 between Kaitaia and Awanui - the local community and council are supportive of (and anticipating) the change.
