

## OIA-15941 - Wellington City Vehicle Ownership

**Report date:** 5 August 2024  
**Data extract date:** 5 August 2024

**Initial request:** I am trying to reach you to get the following data for the last five years in Wellington city:  
 • Total number of private car and bus (both electric and hybrid including new registrations) and their proportion in the total vehicle fleet

**Clarified request:**

- It would be great if you could please provide data for the last six financial years, from July 2018 to June 2024
- I believe [the] definition [of private passenger cars] also includes passenger cars and SUVs used for commercial purposes, for example, taxis. If not, then it would be great to include them and identify all these categories with breakdown.
- I would like to have both [bus] body types and both [weight] categories (i.e., light/heavy) to be included with their breakdown.
- I am happy with the data for in-scope vehicle types with breakdown for each type. It would be great if you could please also add the data for "MOPED", "MOTORCYCLE".
- I would like to have data on separate totals for electric/hybrid cars/buses and nonelectric/hybrid cars/buses with their breakdown.

**Requester:** [REDACTED]  
**Source database:** Motor Vehicle Register (MVR)  
**Created by:** Richard Wall (Data Services)  
**Peer reviewed by:** Moses Kakrada (Data Services)

**Caveats:**

- The data has been extracted from the Motor Vehicle Register (MVR) and is current as at 4 August 2024.
- Data can only be reported on vehicles that have ever been entered in the Motor Vehicle Register (MVR). Imports for private off-road use would not be recorded.
- Data is limited to vehicles where the Territorial Local Authority (TLA) for the registered owner's address is Wellington City.
- The TLA pertaining to the registered owner's address is not necessarily the area in which they operate the vehicle.
- Vehicle counts are the total number of registered vehicles, as at 30 June of each reported year (2019-2024).
- Data comprises counts of registered vehicles by vehicle type, body type, usage, motive power and derived weight group.
- Data is limited to vehicles with one of the following vehicle types:
  - o PASSENGER CAR/VAN
  - o GOODS VAN/TRUCK/UTILITY
  - o MOTOR CARAVAN
  - o BUS
  - o MOTORCYCLE
  - o MOPED
- Data is limited to vehicles with an active registration as at 30 June of the year in which they are reported on.
- Registered - in relation to a vehicle, means registered under Part 17 of the Land Transport Act 1998, and consequently a vehicle will have plates issued to it.
- Data includes vehicles that may or may not be currently registered.
- Registration statuses are defined as follows:
  - o Active - the vehicle has not been deregistered and the registration has not lapsed.
  - o Lapsed - the vehicle has not had a valid vehicle licence for 12 months and has been automatically deregistered.
  - o Cancelled - the vehicle has been manually deregistered.
- Data includes vehicles that may or may not be currently licensed for road use.
- Licence - in relation to a vehicle, means that the current annual licensing fee for the vehicle has been paid, allowing it to travel on New Zealand roads. Commonly referred to as 'rego' by the NZ public.
- Data columns provided in the spreadsheet tabs are:
