Providing sets of data for the Annual Review debate.

## NZ Transport Agency Waka Kotahi's response:

### Let's Get Wellington Moving (LGWM)

NZTA's reporting on LGWM spending dates back to the 2015/16 financial year. As of 31 March 2024, LGWM has spent the following:

#### **1. Total expenditure on Let's Get Wellington Moving since its inception.**

\$180,676,672. Spending allocations are as follows:

Item	Spending
Progressing the planning and delivery of City Streets, Golden Mile, Thorndon Quay / Hutt Road	69,713,137
Development of Emerging Preferred Option for MRT and SH1 Improvements	50,569,832
Property acquisitions	7,606,234
Travel Demand Management	4,225,031
Staff salaries and expenses	27,734,185
Contractors	17,128,255
Programme office costs	3,699,999
<b>Total</b>	<b>180,676,672</b>

#### **2. Total expenditure on consultants for Let's Get Wellington Moving since its inception.**

\$99,967,143.

We have interpreted "consultant" to be an employee of a consulting firm paid for a discrete piece of work such as preparing a report, business case etc. This is in line with NZ Procurement's definitions here: <https://www.procurement.govt.nz/assets/procurement-property/documents/consultancy-services/consultant-vs-contractor-how-to-tell-the-difference.pdf>

Examples of consulting disciplines include utilities investigation, project management, transport planning, civil engineering, travel behaviour change, procurement, urban design, environmental planning, quantity surveying, funding and finance, communications and engagement, modelling and economics, scheduling, risk management, processes and systems.

#### **3. Total expenditure on advertising for Let's Get Wellington Moving since its inception.**

\$1,759,463.

This figure includes all spending that is coded as “advertising” in the LGWM financial system, which includes design and printing costs for consultation materials that were done by an advertising supplier. The figures exclude design and printing costs that were not completed by an advertising supplier as those costs are classified as “engagement”.

**4. Total expenditure on the Cobham Drive pedestrian crossing, broken down by expenditure type.**

Construction of the Cobham Drive crossing was completed on 31 January 2023. As at 31 May 2023, LGWM spent \$2,001,000 on construction and \$548,000 on consultants for the combined Cobham Drive crossing and SH1 Safer Speeds project. Consultant costs cannot be split out between the safer speeds and crossing aspects of the project as these were tracked across the full project, rather than as separable portions.

Consultant costs for the project were considerably higher than anticipated because Wellington International Airport Limited sought a judicial review of the decision to approve a pedestrian crossing and then sought injunctive relief in support of their application. More than half of the total costs categorised as consultant costs were related to defence of the legal action.

Since figures were prepared for 31 May 2023, \$18,189 has been incurred in traffic monitoring fees at Cobham Drive and \$7,579 has been incurred for data services.

**5. Total expenditure on light rail in Wellington, broken down by expenditure type.**

A total of \$50,569,832 was spent on developing an Emerging Preferred Option for Mass Rapid Transit and SH1 improvements. Please note this relates to the investigation on both Light Rail and Bus Rapid Transit options as part of work on LGWM Transformational Programme rather than light rail specifically. We are unable to split the cost of Light Rail investigation work out from Bus Rapid Transit investigation work.

In the time available, we are also unable to provide the breakdown by expenditure type.

**Auckland Light Rail**

**1. Total expenditure on Auckland light rail since its inception.**

\$237 million has been spent by central government on Auckland Light rail to end March 2023. This figure **includes** spending on the initial phase of the project's wind-up. It **excludes** costs incurred by Auckland Transport.

**2. Total expenditure on consultants for Auckland light rail since its inception.**

\$74.3 million to end March 2023.

**3. Total expenditure on advertising for Auckland light rail since its inception.**

\$0.450 million to end November 2023. All engagement ceased at that time.

**4. Total expenditure on businesses cases for Auckland light rail since its inception.**

With the exception of the purchase of land, all the work on Auckland light rail has been done to develop business cases, and other preparatory work that supports that e.g. consenting work. Therefore, the expenditure on business cases is \$204.2 million.

**5. Total expenditure on capital works for Auckland light rail since its inception.**

No capital works have been undertaken for Auckland light rail. The only capex costs have been for office furniture for ALR Ltd and the cost of purchasing 317 New North Road, Kingsland, Auckland, which was \$32.8 million.

**Clean Car Discount**

**1. Value of rebates paid out to vehicles under the Clean Car Discount scheme since its inception, broken down by vehicle make and model.**

Please refer to the enclosed spreadsheet (Attachment 1). Data must be read in conjunction of the caveats on the first sheet.

**2. Value of fees charged to vehicles under the Clean Car Discount scheme since its inception, broken down by vehicle make and model.**

Please refer to the enclosed spreadsheet (Attachment 1). Data must be read in conjunction of the caveats on the first sheet.

**Speed/Safety**

**1. Contributing factors to fatal road crashes, each year for the past 10 years – please provide in similar format to [here](#).**

Please refer to the enclosed document (Attachment 2).

**Road maintenance**

**1. All raw numbers for the road maintenance statistics included in the draft GPS (road rehabilitation % stats).**

### Note:

- This data is provided from the road traffic crash database; Crash Analysis System (CAS) version 2.9.0
- 2024 data is not yet complete in CAS, but these are the current figures from CAS as at 29/04/2024. Data is limited to fatal crashes for the years 2014 to 2024 as recorded in CAS to date (29/04/2024).
- NZ Transport Agency Waka Kotahi maintains CAS which is updated once a Traffic Crash Report (TCR) is received from NZ Police sometime after the crash.
- A crash, to be recorded in CAS must have occurred on a road. The CAS definition of a road is any street, motorway or beach, or a place to which the public have access with a motor vehicle, whether as of right or not e.g. a public car park.

- Due to the police reporting time frame and subsequent data processing, there is a lag from the time of a crash to full and correct crash records within CAS.
- Due to the COVID-19 pandemic, NZ had a 4-level Alert system in place from 21 March 2020 until this changed to a Traffic Light system from 3 December 2021 to 12 September 2022. The amount of traffic on the roads during level 4 lockdowns was greatly reduced, which consequently reduced the number of road crashes. Road movements under the Orange and Red levels of the Traffic Light system would also be reduced due to the restrictions in place, so data from these periods will not align with previous trends.
- The cause of a crash cannot necessarily be attributed to any one factor (e.g. fatigue) as a crash may have multiple factors.
