Please refer to document 1a in the document schedule.

Kia ora Hugh

Apologies for the delay. Please find our comments in the attached.

Our overall feedback is as follows:

**Out of Scope**

- Some of the policy changes proposed will need to be informed by the outcomes the Minister wants from the changes, and are likely to have the biggest impact on drafting time needed, specifically:
  - CBA requirement – we have suggested some changes to the key point on the likely impact of greater economic analysis for speed limit changes. We need to ensure that we don't end up drafting something that doesn't support what the Minister wants to see happen. CBAs are going to be very costly for RCAs, and ones that have been completed have supported speed limit reductions.
  - High risk/black spot requirement – the concept of a high risk area or black spot may be difficult to define in terms of something different from what has already occurred – most work to date on speed management has been focused on these highest risk roads, SHs in particular.

Kia ora koutou,

Thanks for your time on Friday and again this morning.  
Attached is the updated timeline and briefing.

Could we please have any comments by **11am Wednesday** to enable us to get the briefing finalised and to the Minister's Office on Wednesday.
