

# Of all the new road markings on the Southern Coromandel Loop there's one we hope you don't see

Amongst the new road markings and engineering work on the Southern Coromandel Loop you'll find four landing pads for the rescue helicopter. That's the sort of road it is. We can reduce some of the risks you face but the rest is up to you. Don't outpace your own abilities. You came for a motorcycle ride, not a helicopter ride. Stay safe.
