

# Proposed new no stopping areas

The NZ Transport Agency Waka Kotahi (NZTA) proposes making 1300 metres of SH6 at Lowburn near Cromwell safer for everyone, by creating no stopping areas on both sides of the highway. The map shows the areas and extent of the proposed changes (indicated by the red lines).

This proposal is to manage the impacts of the Kiwi Water Park on Lake Dunstan in the Lowburn area, the demand it has created for roadside parking, and to reduce the risk to people from parking on a high speed (100km/h) rural highway. Safe off-road parking is now provided for both Kiwi Water Park visitors and Lake Dunstan recreational users on LINZ land.

Once we've considered your feedback on this proposal, NZTA plans to set a bylaw in accordance with the Land Transport Management Act 1998 by amending the NZTA Traffic Controls on State Highways Bylaws 2017.

Submissions can be emailed to [sh6lowburnparking@nzta.govt.nz](mailto:sh6lowburnparking@nzta.govt.nz) or made in writing to the Senior Safety Engineer, NZTA, PO Box 5245, Dunedin 9058
