

# Upcoming Night Closure

SH2 north of Napier closing overnight for recovery works

Transport Rebuild East Coast

The Transport Rebuild East Coast (TREC) team would like to advise people travelling to plan ahead for three overnight closures on State Highway 2.

**Where?** Between Whirinaki and Tūtira.

**When?** On **Monday 15 July, Tuesday 16 July and Wednesday 17 July, 9pm to 5am** each night. The last closure ends at 5am Thursday 18 July.

**Why?** Recovery works, including critical rock blasting that requires both lanes of the road.

Road users are advised to please delay travel during the full road closure times as there is no viable detour.

The overnight work is weather dependent. If weather delays the work, contingency dates are scheduled for Thursday 18 July and Friday 19 July, 9pm to 5am each night.

Thank you for your patience and understanding while these essential works take place.
